#### Explanatory notes:

This flora list provides a summary of confirmed flora species records for the City of Gold Coast local government area based on existing knowledge at the time of this version of the list. This flora list was compiled by City of Gold Coast officers. Expert input provided for this version of the flora list by Jason Searle, Glenn Leiper, Graham McDonald, Craig Robbins and Bill McDonald is gratefully acknowledged.

#### Scientific and Common names

Scientific names for plants derived from the Census of the Queensland Flora, Queensland Herbarium (2021). Common names for all plant species derived from the referenced literature below.

#### Qld Status

Conservation status as listed under the Queensland *Nature Conservation Act 1992*, and is current at the date of this version of the flora list. Exotic and translocated species have also been indicated in this column for convenience.

#### EPBC Status

Conservation status as listed under the *Environment Protection and Biodiversity Conservation Act 1999*, and is current at the date of this version of the flora list.

#### CWS

City-wide significance or a priority species for conservation. For this version of the flora list, this rating has largely been applied on the basis of the status of a species under relevant Queensland, Federal, and New South Wales legislation, scientific criteria, species with a distribution considered significant to the Gold Coast, and expert panel input for each floral group.
